Philip,

Thank you for the tour of the WOFT facility in [redacted] and for introducing me to the valuable training WOFT provides. I especially appreciate the opportunity you gave our leadership team to participate.

As school employees, we are committed to making our campus as safe as possible for students and staff. The training strengthened our ability to respond effectively not only at school, but in situations beyond campus as well.

Observing and participating in the low-light scenario training gave me greater confidence that, as a school leader, I will know how to respond should the need arise. [redacted]

Sincerely,

Billy Skelton
Assistant Principal
Wesley Christian Academy
